No. of Functional Features Included in the Solution

Date	13 November 2026
Team ID	0157CS241131
Project Name	AI Travel Itinerary Planner (Trip Genius AI)
Maximum Marks	5 Marks

Functional features of the solution, with implementation status (verified against the repository source).

Functional Features Overview

S.No	Feature Name	Feature Description	Module / Component	Status	Marks Contribution
1	Home page & destination cards	Landing page with project introduction and Kyoto / Amalfi Coast / Manali cards that prefill the planner	HomePage.tsx	Done	1
2	Planner form & validation	Destination, dates, interests, budget tier, pace; validates required fields, date order, max 30 days	PlannerPage.tsx, schemas/itinerary.py	Done	1
3	AI itinerary generation	Builds prompts, calls Groq openai/gpt-oss-120b, returns JSON itinerary	itinerary_service.py, routes/itineraries.py	Done	1
4	AI output validation & errors	Parses JSON, checks day count and activities; maps timeout/rate-limit/invalid output to HTTP errors	itinerary_service.py	Done	1
5	Day-wise itinerary view	Shows each day with title, notes and Morning/Afternoon/Evening activities	ItineraryPage.tsx	Done	1
6	Authentication	Sign up, login, logout, session restore via Supabase Auth	AuthModal.tsx, useAuth.tsx, supabase.ts	Done	1
7	Token verification	Backend verifies Bearer token against Supabase for private routes	api/deps.py	Done	1
8	Save trip	Stores trip row and itinerary JSON for the logged-in user	trip_service.py, routes/trips.py	Done	1
9	My Trips dashboard	Lists saved trips and opens a trip with its itinerary	MyTripsPage.tsx	Done	1
10	Rename / update trip	PATCH and PUT to update title or full trip	routes/trips.py	Done	1
11	Delete trip	Delete with confirmation prompt; ownership enforced	MyTripsPage.tsx, routes/trips.py	Done	1
12	PDF export	Multi-page PDF with text wrapping and page breaks	pdfExport.ts	Done	1

S.No	Feature Name	Feature Description	Module / Component	Status	Marks Contribution
13	Row Level Security	Per-user policies on trips and itineraries	database/schema.sql	Done	1
14	Demo mode & health check	Demo flag for offline demo; /health endpoint for monitoring	routes/health.py	Done	1
15	Responsive UI & theme	Forest green and terracotta theme with DM Serif Display and DM Sans fonts	index.css, AppLayout.tsx	Done	1
16	Automated tests	34 pytest tests for health, CORS, itineraries and trips	backend/tests/	Done	1

Feature Summary

Metric	Count / Value
Total Features Planned	19 (16 delivered + 3 roadmap items)
Total Features Implemented	16
Core / Must-Have Features	11 (rows 2–9, 11, 12, 13 and AI generation)
Additional / Nice-to-Have Features	5 (home cards, demo mode, rename, health check, theme)
Features Tested & Verified	Backend features covered by pytest (34 tests); frontend features TO ADD after manual test

Feature Category Breakdown

S.No	Category	Features in Category	Example Features
1	User Interface (UI)	4	Home, planner, itinerary view, My Trips, responsive theme
2	Backend / Logic	4	Validation, prompt builder, AI response parser, trip service
3	Database / Storage	2	trips, itineraries tables; RLS; indexes
4	API / Integration	3	Groq, Supabase REST, /health
5	Security / Authentication	3	Supabase Auth, token verification, CORS allow-list
